

ABOUT BHARTI FOUNDATION

Bharti Foundation, the philanthropic arm of Bharti Enterprises, implements and supports programs in the field of primary, secondary, higher education as well as Sanitation.

The Satya Bharti School Program, the flagship program initiated in 2006, provides free and quality education to underprivileged children in rural India across six states, with a focus on the girl child. Students are also provided free uniforms, text books, note books, stationery and mid-day meals.

The Satya Bharti Quality Support Program, initiated in 2013, engages school leadership, teachers, students and communities for enhancing overall schooling experience in the partnered government schools by incorporating good practices from Satya Bharti Schools.

Bharti Foundation Ensures Rural Children Continue to Learn Even During the COVID Pandemic

The current pandemic has resulted in schools being closed since March 2020 to contain spread of the virus. Students and teachers have not been able to physically attend school. However, in this phase of social distancing, to ensure that learning continued for underprivileged children without any impediments, Bharti Foundation adapted online methods to facilitate remote learning for students.

Close to 1,000 class-wise WhatsApp groups have been created to reach out to Satya Bharti School students on their parents' mobile phones. Homework and assignments are shared over the phone based on simple tasks and activities that can be performed at home. Virtual Summer Camps, online teacher's training, telephonic Parent-Teacher Meetings are a few of the examples of how our schools have adopted new ways of working.
