

HIGHER EDUCATION

The Bharti Airtel Foundation collaborates with renowned institutions to advance higher education initiatives. The Foundation entered into a strategic partnership with Plaksha University to create a world-class technology institution for providing high-quality education and has also instituted scholarship for deserving students. It has also played a role in establishing the Bharti School of Telecommunication Technology and Management at IIT Delhi, the Bharti Centre for Communication at IIT Bombay, and an independent think-tank, 'Bharti Institute of Public Policy (BIPP)' with ISB Mohali. With a vision to promote opportunities for continued higher education for deserving female students from diverse socio-economic background pursuing career in the area of technology, the Bharti Scholarship has been instituted with J.C. Bose University of Science & Technology. In addition, it supports meritorious students at the University of Cambridge through the Manmohan Singh Bursary Fund. Moreover, the Foundation is also supporting Anant University in establishing the School of Future Technologies.

BHARTI AIRTEL SCHOLARSHIP

Bharti Airtel Foundation aims to support deserving students from diverse socio-economic backgrounds with a focus on girl students, to become future technology leaders. To achieve this goal, the Foundation launched merit-cum-means based "Bharti Airtel Scholarship Program" for students enrolled in technology based engineering undergraduate (UG) courses and 5-year integrated programs (as per the eligibility criteria) in the top 50 NIRF Engineering institutes including IITs. The students receiving the scholarship shall be called Bharti Scholars. The fully funded scholarship is envisaged to eliminate financial barriers that hinder access to quality education to meritorious students. It covers 100% annual fees over the duration of the course, including meal & accommodation charges for those who apply for it. A laptop will also be provided to all Bharti Scholars in the first year.

Transforming India
**ONE VILLAGE
AT A TIME**

**25 years of Quality Education
in Rural India**

Bharti Airtel Foundation, the philanthropic arm of Bharti Enterprises established in 2000, has been making a significant impact in the field of education, in India. With a focus on primary, secondary, and higher education, the Foundation's flagship program, the Satya Bharti Schools, has been providing free quality education to underprivileged children, in rural India. The Foundation also partners state education departments to transform government schools through Quality Support program and Quality Support Program State Partnerships. In addition, the Foundation supports higher education initiatives with IIT Delhi, Plaksha University, ISB Mohali etc.

SATYA BHARTI SCHOOL

The Satya Bharti School Program has been the cornerstone of Bharti Airtel Foundation's efforts to provide free quality education to children in rural India. Since its inception in 2006, the program has made a significant impact on underserved children, with a special focus on the girl child.

Delivering transformative, value based, holistic education for underprivileged children and equip them with skills and knowledge to become responsible, self-reliant, and employable citizens of the country. The program also emphasizes on enhancing the learning experience with vibrant and engaging teaching learning materials, Digital Classrooms and Robotic Labs for future readiness.

IMPACT IN NUMBERS

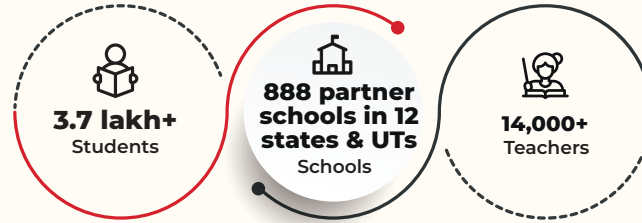

*Data as of March 2024

QUALITY SUPPORT PROGRAM(QSP)

Initiated in 2013, the program aims to improve the over-all school experience for students and teachers in Government schools in partnership with school leadership. It supports children, teachers, parents, and administrators to transform schools into vibrant institutions by bringing in co- scholastic interventions.

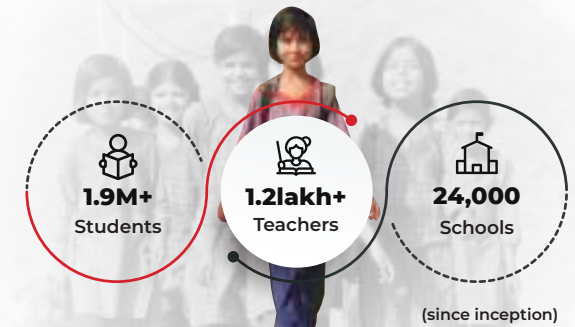

*Data as of March 2024

QSP STATE PARTNERSHIPS

Seeing positive outcomes in the partnered schools in Quality Support Program, many education departments/officers requested to scale up some of the processes covering government schools at the entire block or district level.

Thus, QSP State Partnerships was initiated with states like Rajasthan, Jammu, and Assam. Areas of intervention focus on strengthening the implementation of National Education Policy. A few initiatives like building life skills in students through House systems, No-Bag Day, school leaders empowerment etc., are being implemented.

THE TEACHERAPP (TAPP)

TheTeacherApp is a digital initiative by the Bharti Airtel Foundation, rooted in the extensive work of the Foundation over the past two decades. This initiative has focused on ground-level efforts through direct intervention and government partnerships, and it aims to catalyze learning by leveraging the digital boom in the country. We believe that creating happy and energized schools, and engaging teachers, students, and parents is crucial for transforming educational environments. The core mission of the platform is to empower teachers, school leaders, and educationists by providing them with high-quality, engaging content.

THE PLATFORM AIMS TO

1. Create a safe & welcoming space for teachers to learn, engage and explore new skills, ideas, and content
2. Empower teachers and school leaders to look at schools holistically; and find resources to help in their journey for school excellence
3. To create a program that uses technology to empower India's teaching community to impact millions of student-beneficiaries
4. To fire up the nation's imagination around teachers by shining light on the teaching community
